

84" Oval Table

KSI conference tables are fabricated to the highest standards for both structure and finish. This table is an 84" oval shape with rectilinear legs and a center beam. The squared edge treatment provides a clean and sleek appearance.

We take great pride in our workmanship. Veneers are booked matched and sequenced on the table top. The finish is our plain sliced red oak with a clear moisture and alcohol resistant coating.

We can modify this piece to suit your personal requirements
