

CSD Installation

If you have 10 minutes, you can install a KSI Ceiling Loudspeaker. It's as easy as 1.. 2.. 3..

1. Remove the first tile where you want to place your *KSI* loudspeaker.
2. Remove a second tile to allow for loudspeaker installation.
3. Screw the supplied hooks to the rear of the loudspeaker as shown.
4. Slide the *KSI* loudspeaker up through the opening and rest it on the grid.
5. The *KSI* loudspeaker should look as it does in number 5.
6. Make the wire connections to the electrical input & attach the hooks to the structure above. Make absolutely sure all connections meet all local electrical codes.
7. Once all connections are safe and secure, replace all tiles and firmly snap the grille on with both hands.
8. It looks & sounds great. Turn it on and enjoy your new *KSI* Loudspeaker.
