

CS Installation

If you have 10 minutes, you can install a KSI Ceiling Loudspeaker. It's as easy as 1.. 2.. 3..

1. Remove the first tile where you want to place your *KSI* loudspeaker.
2. Remove a second tile to allow for loudspeaker installation.
3. Place the *KSI* grille into the first opening.
4. Make sure the *KSI* grille fits flush down into the grid.
5. Install the supplied screws & hooks onto each side of the *KSI* loudspeaker.
6. Slide the *KSI* loudspeaker through the second opening & place it onto the grille.
7. Make the wire connections to the electrical input & attach the hooks to the structure above. Make absolutely sure all connections meet all local electrical codes.
8. Replace the second tile once all connections are correct and have been tested.
9. It looks & sounds great. Turn it on and enjoy your new *KSI* Loudspeaker.
