

KSI Series 100 equipment racks are an economical way to house all your rack mount electronics. They are sturdily constructed so they'll hold even the heaviest equipment without failure. The finish is our textured black lacquer. Sizes from 4 to 40 spaces are available.

Standard features include rear locking vented doors, cable knockouts in the bottom with rear access and front mounted full hole rack rails. Options include heavy duty swivel casters, front locking doors, and inlaid smoked or clear plexiglass.
