

KSI Standard Lecterns

All **KSI** Lecterns & Presentation Systems Furniture are constructed from premium A-1 grade veneers and solid woods, book matched and sequenced. Our exclusive five coat CAB acrylic lacquer finish is hand sanded and rubbed and will protect the natural beauty of the wood for years to come. All **KSI** products are manufactured to exact standards of precision, structural integrity and finish. This dedication to detail assures that **KSI** Lecterns & Presentation Systems Furniture will be accepted by the most discerning individuals. Laminated surfaces feature only real Nevamar brand laminate. This material will hold up under the most abusive environments, and unlike others who use cheap melamine or vinyl, we won't have a disappointed customer. One thing every user of a **KSI** product will notice is our rock solid construction. There is no substitute for manufacturing a sturdy, well built product, so every **KSI** Lectern is manufactured using water resistant glue and screws. Our manufacturing process can not be rushed, only eliminated, and we won't do that!

To finish off a **KSI** piece, we offer a large selection of options and finishes to suit your personal requirements. Browse through the many solutions for your audio visual environment, and if there is something you don't see, give us a call.
