

Ambassador ADA 1

The Ambassador Lectern is designed to meet the requirements for physically challenged individuals. Heavy bottom plate construction and a cantilevered top enable the Ambassador Lectern to be safely used with a wheelchair. For added flexibility the top section can be raised from 30" to 42" via the internal electric height adjustment. Shown here in plain sliced burnt cherry.

Model Number	External Dimensions HxWxD	Work Surface Dimensions WxD
L-300-40/30-EL	30"x40"x30" up to 42"x40"x30"	38.5"x28"

The dimensions above are our standard sizes. The Ambassador Lectern may be resized to accommodate your individual requirements.
