

KSI Premier Line Lecterns

Delegate 21

An L-500-60/32 Delegate lectern is the obvious choice when lots of room is needed. The lower section houses a tall rack section, adjustable shelves and a large CPU space. A removable front panel makes equipment access a breeze. An LCD monitor well and a keyboard/mouse drawer complete the top. The logo is CNC routed, then filled with gold powder. Finish is plain sliced cherry with our dark cherry finish.

Statesman 18

Our L-100-60/32 Statesman Lectern has plenty of room for large amounts of equipment particularly for an instructional environment. The work surface features dual 15" LCD monitor mounts, a 19" rack mount, a touch panel cutout and a flip down security

panel. The lower section includes two rack mount areas and a CPU/storage area. Rear locking doors and a locking front access panel keep all your equipment secure. A pull out side drawer is for your visual presenter. The finish is plain sliced red oak.
