

presentation systems furniture

Furniture does not include electronic equipment shown.

Shipping times should be considered estimates. We will produce your order in a timely and expeditious manner. Since product quality is our highest concern, KSI will never sacrifice our legendary quality in exchange for faster delivery. Material availability, plant load at time of order, and order size may affect final shipping dates.

All KSI Lecterns and Presentation Systems Furniture are hand crafted and manufactured to the highest standards. Only A-1 grade veneers and premium solid woods are used throughout. The use of screws and water-resistant glue in all joints assures sturdy and structurally sound furniture for years to come. And KSI's exclusive five coat catalyzed finish is moisture and alcohol resistant, lustrously smooth.

KSI's Essential Line of Lecterns & Presentation Furniture offers you shipment within 30 days, perfect for all of those time sensitive orders. Every model in our Essential Line comes STANDARD with our most popular features, allowing you to quickly and efficiently install all of your equipment in a minimum amount of time. To allow for the quickest possible delivery, the only thing you have to select is the work surface options and one of our Essential Line standard finishes, red oak or maple with KSI's clear natural finish. Premier Line finishes are available for an additional charge and add one week to the delivery time.
