

KSI Premier Line Finishes

KSI offers a full selection of finish options to blend with your interior environment. Red oak, maple, mahogany, walnut and cherry wood veneers are available in the standard colors shown here.

Options include:

- Custom color matching to a supplied physical sample
- Custom color match with a control sample returned to customer for approval

Since wood is a natural product, the grain, texture, color and porosity of each piece will vary and an exact color match cannot be guaranteed.

KSI offers 100 different laminates to choose from. You can select solid colors, patterns, textures and wood grains to enhance any interior.

All KSI Premier Line lecterns and Presentation Systems Furniture may be modified to suit your requirements.

Due to the nature of the printing process of this catalog, we can not guarantee an exact match to colors shown. If an exact match is required, please call us and request a finished wood sample.
