

A deep reveal creates smooth shadow lines

We can modify this piece to suit your personal requirements

Delegate 12

Take our 32" Delegate Lectern, add a top rail of custom molding, and this lectern takes on a truly impressive look. The presenter's side gives you everything you need. An LCD monitor well, keyboard pull out shelf, a side pull out drawer for your visual presenter, a CPU space, and a rack mount with ventilation and a removable front keeps your equipment in check. Bifold doors lock for security and recessed casters make it easy to move. The finish is natural cherry.
