

Finish Options

KSI offers a full selection of finish options to blend with your interior environment. Red oak, select white maple, cherry, mahogany and walnut wood veneers are available in the standard colors shown here. Options include custom color matching and special order wood species. We can also supply you with a control color sample for your approval prior to finishing your custom color match. Since wood is a natural product, the grain, texture, color and porosity of each piece will vary and an exact color match cannot be guaranteed.
