systems furniture*

All KSI Lecterns and Presentation Systems Furniture are hand crafted and manufactured to the highest standards. Only A-1 grade veneers and premium solid woods are used throughout. The use of screws and 100% glue assure sturdy and structurally sound furniture for years to come. And KSI's exclusive five coat catalyzed finish is moisture and alcohol resistant, lustrously smooth.

Standard woods include maple, red oak, honduras mahogany, black walnut and american cherry. Laminates, custom colors and finishes may be special ordered to meet all your interior requirements.
